The 2nd Combinatorics Day

Saturday, 17th of March of 2012

DMUC, room 2.5

Abstracts

9:30-10:30 **Ethan Cotterill** (CMUC, UC):

Exterior algebras, Wronskians, and Schubert calculus

Abstract: The goal of this talk will be to explain, following work of Gatto, Purbhoo, and Scherbak, how the three objects in the title relate to one another.
