

Errata

Page 1747, Line -8:

Correct sentence: “In this form the statistic $B(h)$ was also considered by ...”

Page 1752, Theorem 3.2:

In order to obtain the consistency of the multiple test procedure against each fixed alternative distribution, at least one the test statistics $T_{n,2}$ or $T_{n,3}$ must be redefined as $4nI(S_n \text{ is singular}) + B(h)I(S_n \text{ is nonsingular})$, where $I(\cdot)$ is the indicator function, and $h = h_S$ for $T_{n,2}$, and $h = h_L$ for $T_{n,3}$ (cf. Csörgő, 1989).
